INDOOR SORTING

EASYMAX

Easymax bins can be stacked to save space in the home or office. Their sleek, modern design makes them an attractive addition to any setting. The lid is specially designed so that objects may be placed on it. The front opening enables easy waste posting even when bins are stacked or have objects placed on top of them.

SPECIFICATIONS

Material:

- virgin or recycled non-toxic, 100% recyclable polythene.
- Anti-UV treated

Process:

injection moulding

Body:

- cut-off pyramid shape with rounded corners.
