ORGANIC WASTE

MINIMAX +

The practical kitchen caddy for food waste collection

 **MATTIUSSI**[®]
ENVIRONMENTAL

ORGANIC WASTE

MINIMAX +

The renewed kitchen caddy that fits perfectly in the kitchen. The wider feeding mouth facilitates the tricky transfer of food waste from plate to bin, while the internal rounded corners make it easier to clean. The vented lid option combines the advantages of a vented caddy with the comfort of a solid structure.

TECHNICAL FEATURES

Material:

- virgin or reprocessed polypropylene, non-toxic and 100% recyclable, UV-treated, dishwasher proof

Manufacturing process:

- injection moulding

Main body:

- rectangular base
- square-tapered towards the bottom and rounded edges
