

Plastic Bin Range

660L, 770l & 1100L

The EN840 approved Taylor Plastic 4 Wheeled Bin is a cost-effective solution to waste management & collections.

Part of

Egbert Taylor

Plastic Bin Range

1100L

The 1100 litre bin, the most popular size, is suitable for an extensive range of waste applications. Available with or without Din Points, a locking system, foot-operated lid opening and recycling lid inserts.

Technical

Capacity: 1100L Empty Weight: 50kg

Features

- EN840 Compliant
- Reinforced Comb Bar (Honey Comb Structure)
- HDPE, UV Stabilized material
- 200mm Plastic centred castors with rubber wheels
- Large print area on body and lid for customer logos
- Additional Reinforcement on all walls
- Lid with lip handle
- Drain plug

770L

The perfect medium sized solution for your waste containment needs in compact footprint. Available with or without Din Points, a locking system, foot-operated lid opening and recycling lid inserts.

Technical

Capacity: 770L Empty Weight: 43kg

Features

- EN840 Compliant
- Reinforced Comb Bar (Honey Comb Structure)
- HDPE, UV Stabilized material
- 200mm Plastic centred castors with rubber wheels
- Large print area on body and lid for customer logos
- Additional Reinforcement on all walls
- Lid with lip handle
- Drain plug

660L

The 660 litre offers a deceptively large capacity in a small footprint. Available with or without Din Points, a locking system, foot-operated lid opening and recycling lid inserts.

Technical

Capacity: 660L Empty Weight: 40kg

Features

- EN840 Compliant
- Reinforced Comb Bar (Honey Comb Structure)
- HDPE, UV Stabilized material
- 200mm Plastic centred castors with rubber wheels
- Large print area on body and lid for customer logos
- Additional Reinforcement on all walls
- Lid with lip handle
- Drain plug
