# Metal Litter Bin 112L

The Wybone Metal Litter Bin is designed to offer a premium metallic option with a bulkier feel for modern on-street litter solutions.

A large aperture to each side maximises the 112 litre capacity, with internal litter deflectors to ensure waste goes inside the liner.

We recommend placing this bin outside of shopping centres, schools, and on streets; it gives a contemporary look and feel, making it an ideal choice for councils in modern areas.

## Features

- 2mm hot dipped coated galvanised material to BSEN10327 grade DX51D+Z275
