

ContinentalTM Range

500L - 1100L

Built to EN840 standards at our UK manufacturing plant. A rigid hot dip galvanised steel construction with internally welded seams means the Taylor ContinentalTM range is built to last.

Egbert Taylor

Continental™ Range

Trade

They not only provide a long and valuable service but offer fire containment and resilience to vandalism.

Lead by our flagship 1100, the Continental™ range also includes the compact 500, 660, 700, 770, 820 and 1280 litre to provide a solution to every waste containment requirement regardless of market sector.

Recycling

Our recycling range of Continental™ containers encourages the collection of the smallest recyclate up to the bulkiest cardboard collections, with a range of easy to use lids designed to engage the public in good recycling behaviour. Available in 500, 660, 700, 1100 and 1280 litre capacities.

Cage

This 1100 litre container is designed to provide a purpose built solution to the problem of cross contamination in the collection of dry recyclables.

The mesh side panels of these recycling containers allow collection crews and users to become instantly aware of any wrongly placed waste, preventing whole loads from becoming contaminated.

WEEE

The WEEE Bin has been adapted to cater directly for the collection and recycling of small to medium size electrical goods and to divert small WEEE from residual waste sent to landfill.

This specialist container allows for simple collection and secure storage of unwanted electrical items and has the added benefit of a drop down opening for ease of unloading.

Clinical UN Approved

Taylor offers the largest range of UN approved clinical waste containers.

Our certified in-house testing facility, combined with our exceptional quality of manufacturing, which includes internally welded seams and a galvanized steel body with drop resistant castors creates the ultimate container for clinical waste.

Continental™ Range Information sheet / UK EN

500L Food Waste

The smallest of the Continental range, the Continental™ 500 is ideal for both your indoor and outdoor waste storage needs, with the ability to fit through a standard sized doorway due to its small footprint and compact design.

The Continental 500 litre is also available with Fork Lift Pockets or a Foot Operated Lid as well as a wide range of colours and other options.
