

Continental™

1280L

The Continental™ 1280 litre offers a number of advantages compared to other bins. For example the capacity of the 1280 is significantly increased over an 1100 litre bin while sitting in the same footprint.

Part of

Egbert Taylor

Continental™ 1280L

This allows the collection of more waste without taking up any additional street space. It also means that less frequent collections are needed which allows significant fuel savings and reduced CO₂ emissions.

As a result more and more local authorities are switching from an 1100 to a 1280 litre bin to maximise efficiency and save on CO₂ emissions and fuel.

Features

Featured as standard on all Continental™ 1280's:

- EN840 compliant
- Internally seam welded
- Hot dip galvanised body
- Welded comb bar
- 20mm top frame
- 2 x swivel castors & 2 x braked castors
