

# Continental™

## 820L

The Continental™ 820 litre is ideal for your medium to large collections where space is limited. Same footprint as our 770, the sump base creates extra storage capacity whilst retaining the same superb towing capability as the smaller model.

Part of

# Egbert Taylor

# Continental™ 820L

Internally Welded seams prevent internal corrosion, whilst the hard wearing galvanised steel body and base make for a durable, long lasting container that delivers exceptional lifetime value when compared to plastic or alternative steel containers.

The 820 is also available in a drop front variant to allow easy transfer of waste to and from the container and as with all the Continental™ range it is fully EN840 certified and UN approved ensuring superb quality and safety.

## Features

Featured as standard on all Continental™ 820's:

- EN840 compliant
- Internally seam welded
- Hot dip galvanised body
