# Spares & Accessories

## Castors

Our range of castors have been rigorously tested to comply with EN840 standards and to ensure they stand up to the stresses and strains of daily operational use; their steel centres and rubber-tyred wheels ensure the smooth running of your containers.

Our complete range includes standard swivel through to heavy duty towing castors and even includes non-marking, suitable for internal environments.

## Locks & Lock Accessories

Protect your investment with Taylor's range of replacement locks and lock accessories. If you've changed the usage of your container and need a different locking mechanism or just need new parts then we can help find what you are looking for.

## Lids

Taylor's range of robust double skinned, rotary moulded plastic lids are available in a wide variety of colours to suit your requirements. So whether you want your containers to stand out or blend in with their environment we have a lid colour to suit. From Standard Black Trade Lids to Orange Flap recycling lids we've got it covered, including lids for other types and models of container which are not shown here, such as the specialist steel lid.

### Options

- Range of colours
- Range of types
- Range of lid apertures

## Logo Options

Effective use of a logo alongside an eye catching paint scheme is a key aspect in the design of a Taylor bin, and can convey a powerful brand image or message regarding container use.

Personalise your containers with a complete range of WRAP logos or by adding a bespoke logo, available on most of our products and in two types. Die-cut or Digitally printed.

Our in house design and print facility ensures our logos are printed to our high standards and can meet your exact requirements.
