# Textile Bank

The Taylor Textile Bank offers a high capacity collection point within the size of a parking space. The shute has been developed to prevent theft due to a back plate behind the door of a shute.

Features a body with externally welded seams so, the Taylor Textile Bank keeps the contents dry and promises to be service for years to come.

Combined with the latest fill level technology and access control, Taylor can provide solutions to significantly improve the operational and management effectiveness of your bin fleets.
