

Universal

1000 Series

Offering exceptionally high waste volume over the smallest footprint in the range, the Universal 1000 Series is the small solution to your big problem. Combining world renowned quality and expertise with high capacity containment to create a waste solution you can trust.

Part of

Egbert Taylor

Universal 1000 Series

Taylor's Universal range of flat lid stationary dumpsters combine world renowned quality and expertise with high capacity containment to create a waste solution you can trust.

Manufactured in accordance to EN12574 standards, the Universal 1000 Series is designed with integration with EN1501 compliant refuse collection vehicles in mind.

Its compact design allows for use and collection in spaces larger dumpsters could not previously access - making the Universal 1000 Series ideal for large waste production in high density areas.

Internally welded seams prevent internal corrosion, whilst the hard wearing galvanised steel body and base make for a durable and long lasting dumpster that gives exceptional lifetime value when compared to alternative plastic or steel dumpsters.

Features

Featured as standard on all Universal 1000 Series:

- Hot dip galvanised body
- Internally seam welded
- Bolt on FEL pockets
- EN12574 compliance
- Roto moulded lid
- 2x swivel castors and 2x braked swivel castors

Options

Increasing the versatility of your container:

- Lid colour variety
- Bespoke vinyl graphics to display your message to your workforce and members of the public
- Drain plug varieties
- Rear handles

Technical Details
