

Universal

2000 Series

UK made and EN12574 compliant, this flat lid stationary dumpster delivers increased capacity alongside Taylor's world-renowned quality.

Part of
Egbert Taylor

Universal 2000 Series

Taylor's Universal range of flat lid stationary dumpsters combine world renowned quality and expertise with high capacity containment to create a waste solution you can trust.

Meeting EN12574 standards, the Universal 2000 Series is designed for EN1501 compliant refuse collection vehicle integration.

Internally welded seams reduce internal corrosion, whilst the hard wearing galvanised steel body and base make for a robust and long lasting container delivering exceptional lifetime value compared to alternative plastic, roll-top or steel dumpsters.

Available in a wide variety of colours, the Universal 2000 Series' large frontage allows the application of full sized logos, company decals and wraps, helping to communicate your message to members of your workforce and public.

Features

Featured as standard on all Universal 2000 Series:

- Hot dip galvanised body
- Internally seam welded
- Bolt on FEL pockets
- EN12574 compliance
- Roto moulded lid
- 2x swivel castors and 2x braked swivel castors

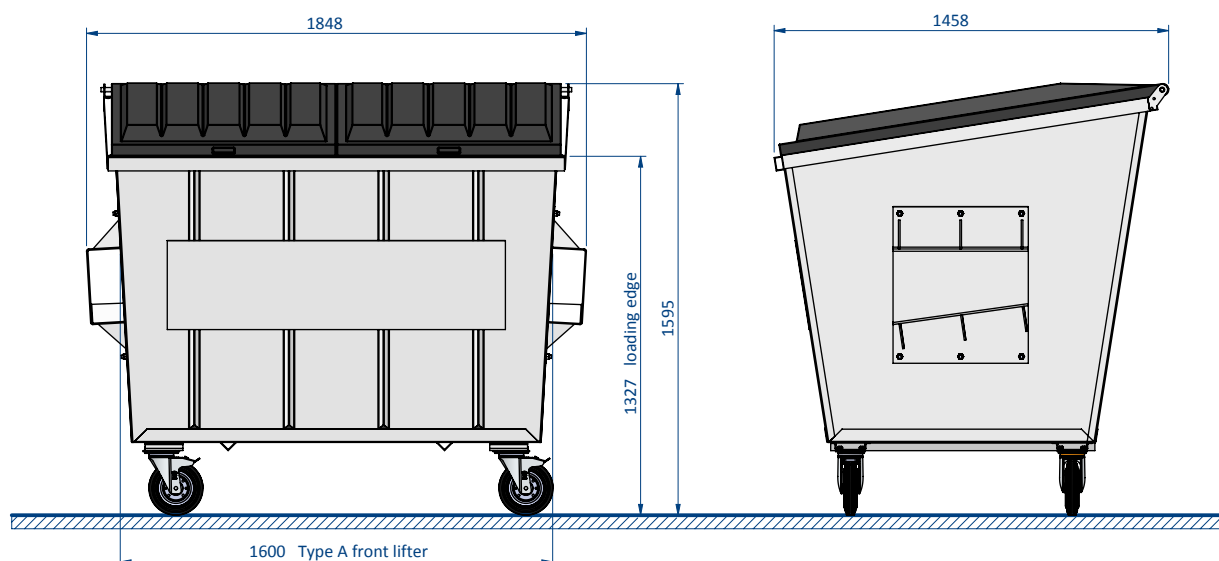

Options

Increasing the versatility of your container:

- Wide selection of body colour options
- Lid colour variety
- Bespoke vinyl graphics to display your message to your workforce and members of the public
- Drain plug varieties
- Rear handles
