Egbert Taylor

Universal 4000 Series

Taylor's Universal range of flat lid stationary dumpsters combine world renowned quality and expertise with high capacity containment to create a waste solution you can trust.

Suitable for a variety of high volume and large item waste disposal, the Universal 4000 Series is manufactured in accordance to EN12574 standards - giving confidence in its design, safety and reliability.

Made for integration with EN1501 compliant refuse collection vehicles, the Universal 4000 Series is a seamless addition to your current waste strategy.

With internally welded seams reducing internal corrosion, and a hard wearing galvanised steel body, the Universal 4000 Series is durable and long lasting - giving exceptional lifetime value when compared to alternative plastic, roll-top or steel containers.

Features

Featured as standard on all Universal 4000 Series:

- Hot dip galvanised body
- Internally seam welded
- Bolt on FEL pockets
- EN12574 compliance
- Roto moulded lid
- 2x swivel castors and 2x braked swivel castors

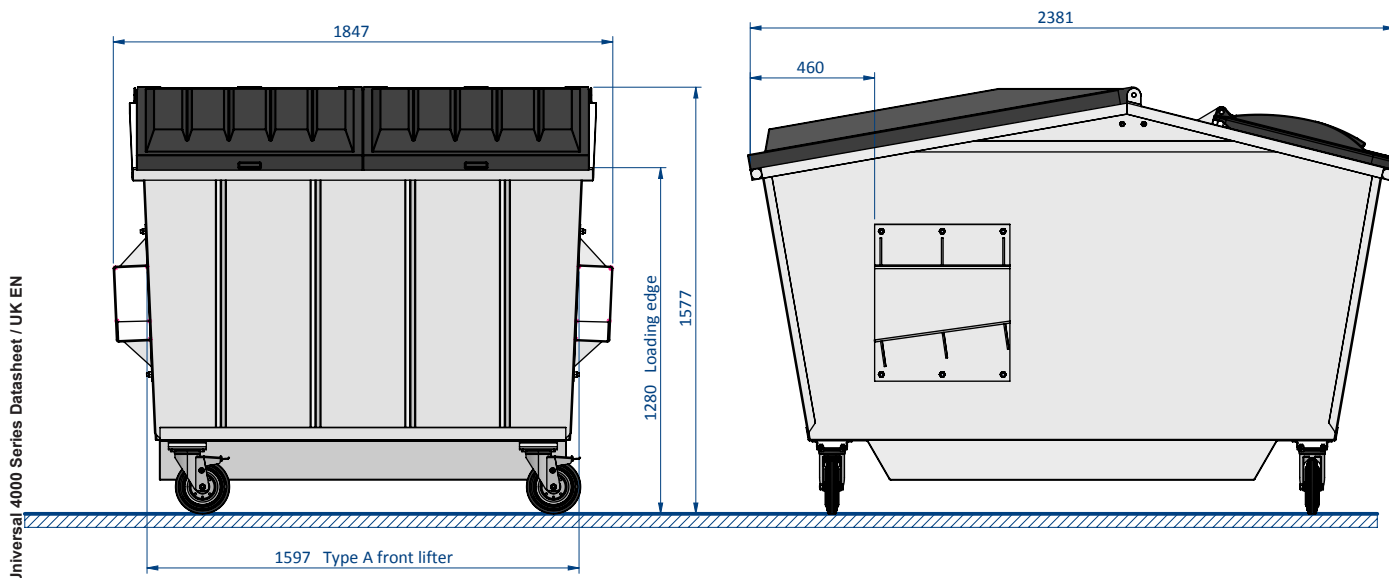

Options

Increasing the versatility of your container:

- Wide selection of body colour options
- Lid colour variety
- Bespoke vinyl graphics to display your message to your workforce and members of the public
- Drain plug varieties
- Rear handles
